

How to MAKE Pockets

☆ Follow this
Step-By-Step guide
and give yourself
the pockets you

DESERVE

Pattern
inside

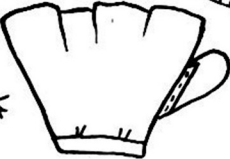

① Grab a garment that needs a pocket.
Measure 6" down from the waist.
Starting from this point,
open the side seam 6 1/2".

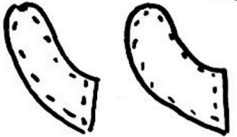

③ With right sides together, sew the flat side of the pocket to the side seam on the front and back of the garment.

⑤ Turn the garment inside out.
Sew both halves of the pocket bag together, starting 1" above the pocket on the side seam, and ending 1" below it on the side seam.

④ Iron the pocket's seam allowance towards the pocket bag. Topstitch close to the seam to hold it in place.
*This helps keep the pocket inside.

② Copy the pattern from the back of this zine onto fabric. Cut 2.

Now you have a pocket!
